EXPERIENCE

Vega Apr 2024-Jun 2026
UX/UI Designer Remote

- Partnered with academic stakeholders to innovate new scheduling and event-management workflows, translating user insights into solutions that supported customer needs and business objectives
- Designed scalable UI/UX features that drove product-led growth, expanding the business footprint into 6 states and supporting the onboarding pipeline for up to 300 new accounts
- Owned 50+ workflows for event management, ticketing, and scheduling tools by collaborating with engineers and building AI-assisted wireframes and front-end prototypes to test and iterate on user-centric designs
- Managed a team of 6 university interns in usability testing by creating 20+ test plans, facilitating weekly research reviews, and communicating findings to executive-level stakeholders

Nu Skin Enterprises Feb 2023-Apr 2024
UX Designer I Provo, UT

- Owned the design of a virtual onboarding system within the business management app used by 130,000+ paid affiliates, granting users the autonomy to self-train and accelerating their time-to-productivity
- Designed an intuitive business analytics dashboard that enabled Brand Affiliates to monitor 5 key business areas – including offers, invitations, enrollments, and earnings – to visualize growth over time
- Spearheaded the rapid redesign of the product detail pages following a critical site disruption, successfully stabilizing and optimizing the digital customer experience

Brigham Young University-Rollins Center for Entrepreneurship & Technology Mar 2022-Feb 2023
Experience Designer Provo, UT

- Collaborated with graphic designers, marketing professionals, and product managers to brainstorm ideas and establish goals for 15+ company events to promote brand awareness and inspire innovation
- Executed events by conducting research, designing floor plans, and contracting 30+ vendors to ensure event success
- Conducted interviews, led onboarding, and delegated assignments for 3 new employees to achieve desired outcomes

Sandbox Hackathon Oct 2022
Product Designer Provo, UT

- Invited to participate in a 13-hour business ideation and creation exercise resulting in the first iteration of a tech product called Snow Day
- Led evaluative testing with 7 participants, using 4 iterations of wireframes to improve overall user experience

EDUCATION

Brigham Young University, BYU Marriott School of Business Sept 2021-Apr 2024
Bachelor of Science, Experience Design and Management Provo, UT

- GPA 3.82

UX Mentor & EXDM Alumni Board Member Jan 2024-Present
Bachelor of Science, Experience Design and Management Provo, UT

- Attended events, participated in panel discussions, and provided individual career coaching and networking opportunities to undergraduate students in the Experience Design and Management program at BYU
